📄 SUMMARY

Results-driven Software Engineer with 3+ years of professional experience in full-stack development using React, Node.js, REST and GraphQL APIs, and SQL/NoSQL databases. Skilled in building responsive, component-based user interfaces (UI) using React, modern frameworks, and custom components. Experienced in developing backend services, Data Pipelines, and delivering end-to-end high-performance features. Collaborated with cross-teams to develop user-focused systems.

📁 EXPERIENCE

- Zeliot Connected Services Pvt. Ltd.

Software Engineer - 2

05/2026 – Present | Bengaluru, India

- Contributing to the development and enhancement of scalable backend services and high-performance web applications while supporting system reliability and performance improvements.

Software Engineer - 1

09/2023 – 04/2026 | Bengaluru, India

- Led the End-to-end migration of the codebase and database from MySQL to PostgreSQL. Optimized schemas, query logic, and updated database ORMs, resulting in improved data integrity and faster query execution.
- Developed data pipelines for data processing and ingestion; implemented backend services, REST, and GraphQL APIs with Node.js; and automated report delivery using cron jobs, contributing to core functionality.
- Implemented Redis-based caching in backend systems to boost performance and reduce response times.
- Identified and resolved system vulnerabilities through VAPT (Vulnerability Assessment and Penetration Testing), implementing secure coding practices across microservices.
- Translated complex designs into fully functional, end-to-end modules using React.js, Node.js, REST, GraphQL, and various SQL & NoSQL databases.

Full Stack Developer Intern

06/2023 – 08/2023 | Bengaluru, India

- Telematic Analytics—Zeliot** is an internship project focusing on creating a platform to collect, process, analyze, and visualize telematics device data, providing actionable insights and KPIs.
- Implemented frontend components using React to create responsive user interfaces.
- Integrated third-party APIs in backend systems, making sure data flowed smoothly with external systems while maintaining the performance and reliability.

📁 PROJECTS

VCADDEMY - Institutional Web Platform 📄

Developed and actively maintaining a responsive web application for an educational institute. Built with React and Material-UI.

🧠 SKILLS

ReactJS • Material UI • Frontend •
NodeJS • GraphQL • REST APIs •
ExpressJS • Backend •
Authentication (JWT/JWE) • SQL •
NoSQL • MongoDB • Redis •
Apache Kafka • Kubernetes •
Docker • Postman • Git •
C / C++ • JavaScript • Python •
Full-Stack Development • Java •
Microservices • Bootstrap

🎓 EDUCATION

Master of Computer Application (MCA) KLE Technological University

02/2022 – 09/2023 | Hubballi, India

Bachelor of Computer Application (BCA) JSS SMI UG & PG Studies

06/2018 – 09/2021 | Dharwad, India

Pre University

KVSR Comp. PU College

06/2017 – 03/2018 | Gadag, India
