📄 SUMMARY

Results-driven Software Engineer with 2+ years of professional experience in full-stack development using React, Node.js, REST and GraphQL APIs, and SQL/NoSQL databases. Skilled in building responsive, component-based user interfaces (UI) using React, modern frameworks, and custom components. Experienced in developing backend services, Data Pipelines, and delivering end-to-end high-performance features. Collaborated with cross-teams to develop user-focused systems.

🎓 EDUCATION

Master of Computer Application (MCA) KLE Technological University

02/2022 – 09/2023 | Hubballi, India

Bachelor of Computer Application (BCA) JSS SMI UG & PG Studies

06/2018 – 09/2021 | Dharwad, India

Pre University KVSR Comp. PU College

06/2017 – 03/2018 | Gadag, India

🧠 SKILLS

ReactJS • Material UI • Frontend •
NodeJS • GraphQL • REST APIs •
ExpressJS • Auth • Backend •
Apache Kafka • JavaScript •
Databases • SQL • NoSQL •
Redis • MongoDB • Kubernetes •
Docker • Postman • Git • Java •
Full-Stack Development • Python •
Microservices • C / C++ • Bootstrap

🌐 LANGUAGES

Kannada • English • Hindi •
Marathi

📁 EXPERIENCE

Software Engineer 1

- Zeliot Connected Services Pvt. Ltd. 📍

09/2023 – Present | Bengaluru, India

- Experienced in developing responsive, high-performance web apps using React and Node.js. Skilled in component-based architecture, REST/GraphQL APIs integration, and MUI.
- Led the migration of the codebase from MySQL to PostgreSQL, ensuring data integrity and optimizing performance.
- Identified and resolved security vulnerabilities through VAPT, implementing fixes and security best practices to ensure robust and secure backend services and APIs.
- Developed Data-Pipelines for data processing and ingestion, implemented backend services, REST and GraphQL APIs with Node.js, and automated report delivery using cron jobs, contributing to core functionality.
- Redesigned and optimized database schemas and queries for performance, scalability, and efficient data handling. Implemented Redis-based caching in backend systems to boost performance and reduce response times.
- Contributed to multiple projects by implementing end-to-end features and creating a rich dashboard with React and Material-UI for data visualization and consistent UI.
- Proven ability to translate designs and prototypes into fully functional, end-to-end modules using React.js, Node.js, REST, GraphQL, and various SQL & NoSQL databases.

Full Stack Developer Intern

- Zeliot Connected Services Pvt. Ltd. 📍

06/2023 – 08/2023 | Bengaluru, India

- **Telematic Analytics - Zeliot** is an internship project from the Full-Stack Development Internship, focusing on creating a platform to collect, process, analyze, and visualize telematic device data, providing actionable insights and KPIs.
- Implemented frontend components using React to create intuitive and responsive user interfaces.
- Integrated third-party APIs in backend systems, making sure data flowed smoothly with external systems while maintaining the performance and reliability.
- Participated in code reviews, debugging, and testing to ensure high-quality software deliverables.
